PERSONAL STATEMENT

A determined and eager Junior IT professional with knowledge in web development, responsive web design, and UI/UX design, Additionally, understanding of MYSQL to facilitate efficient corrections, retrieval, and updating of data. Versatility in the technology domain, along with a robust IT knowledge foundation, distinguishes this individual. A commitment to lifelong learning propels problem-solving in computing endeavors while fostering continuous growth. The pursuit of securing this attachment signifies the initiation of a professional journey with eagerness to contribute and evolve within the corporate landscape.

EDUCATION BACKGROUND

Institution: Riara University

Course: Diploma in Computer Science, 2023-2025.

Relevant Coursework: Web development, Mobile development, Operating systems, Databases, Data structures, Operating systems, Linux and Project 1&2.

Institution: Riara University

Course: Certificate in Information Technology, 2022-2023.

Relevant coursework: Web development, Operating systems, Data structures, Computer essentials.

Institution: M-pesa Foundation Academy, 2019-2022.

Relevant coursework: Service learning, Personal and professional skills learnt in the IB core subjects.

SKILLS

Technical Skills

- **Web Development:** Having been able learn HTML, CSS, and JavaScript, crucial for front-end development I continue to work on projects involving the use of the above stack as I continue to learn to be able to master the art.

- **Responsive Web Design:** Skilled in designing for empathy, the web app that I continue to develop takes consideration of the user's overall experience which gives an opportunity to practice empathy which is applicable in every work environment.
- **UI/UX Design:** Able to carry-out UI/UX research, identify user's needs, create personas and develop various user-flows.
- **Database Systems:** Knowledgeable in MYSQL for corrections, retrieval, and updates, supporting back-end data management.
- **General IT Knowledge:** Proficient in Microsoft Office, cyber threats response, and technical support, providing a strong foundation for diverse IT roles.

Soft Skills

Adaptability: In High school, I pursued engineering before switching to computer science. Despite the change in focus, I quickly caught up and adapted to the technology space, demonstrating my ability to learn and thrive in new environments.

Problem-Solving: During my project proposal, I identified a community need for a livestock marketplace. Using my skills and knowledge, I am currently developing a user-friendly online platform to address this need, demonstrating my ability to solve real-world problems effectively.

Team collaboration: In my coursework, I have collaborated with my peers to complete and deliver high-quality assignments and projects which demonstrates my ability to work with others well and communicate effectively.

Lifelong Learner: Apart from my coursework, I am always eager to explore and earn certifications for both professional and personal growth. This demonstrates my commitment to continuous learning and agility.

EXPERIENCE-VOLUNTEERING

Organization: Nachola University and College Students Association (NUCSA).

JAN 2024- PRESENT

Role: Special leader

As a Special Leader at NUCSA, I practiced empathy and contributed to the community by organizing events and proposing initiatives, such as caring for the elderly. Through this experience, I developed a deep understanding of the importance of empathy, a skill essential for serving people in the IT profession. In UI/UX design, empathy enables me to create user-centric designs while doing my project to address the diverse needs of users, ensuring intuitive and inclusive interfaces. This focus on serving people through thoughtful design reflects my commitment to enhancing user experiences in the IT field.

TRAININGS AND CERTIFICATIONS

Taking these additional trainings and certifications demonstrates my dedication to continuous learning, initiative, and commitment to professional development and personal growth. They have enabled me to expand my skill set, manage my time effectively, and adapt to various learning environments.

IT based:

- IT essentials course – Offered by CISCO
- Introduction to Linux- offered by CISCO
- Databases systems-offered by Networking Academy
- Fundamentals of Cyber security -Offered by IBM

Web development based

- Web development
- Responsive web design- offered by Freedcamp
- UI/UX for beginners- offered by Great Learning academy
- UI/UX design- Offered by IBM

Personal growth

- Public Speaking training- Held at M-Pesa Foundation Academy
- Project management: Offered by Great Learning Academy

EXTRA-CURRICULAR ACTIVITIES

Active participation in the RU-ITECH club and volleyball team keeps me well-rounded, balancing academic and personal pursuits. It fosters intellectual and physical development while cultivating teamwork and versatile skills. This balanced approach promotes overall well-being and prepares me for personal and professional success.

Club: RU-ITECH (2022 - Present)

Sports Team: Uhuru Camp - Position: Setter (Volleyball), 2022-2023.
